Oceanic Consultants, a leading overseas education consultancy, in collaboration with 30 international institutions has launched a national drive Dream Start 2011. The programme will offer more than 35 students across India an opportunity to study at participating institutions without paying any course fee.

The programme is estimated to offer course fee waivers in excess of Rs. 4 crore.

Naresh Gulati, CEO, Oceanic Consultants, said, "Dream Start 2011 will help the winners to save significant costs that they would otherwise be incurring on studying overseas. In many cases, it would be the lifetime savings of the family".

A highly sophisticated web-based technology has been developed to manage the programme and to make the entire process simple and transparent for the students.

Using this technology, the students will be able to search for the course and institution and apply for the tuition fee waiver online -all at their convenience, a press release said. For more information on the list of universities participating and process to apply for fee waiver, visit www.dreamstart.oceanicconsultants.com
